

Lighting/Rigging

Our selection of lighting services can illuminate your event to taste, big or small. Create the mood with a range of lights and stage effects designed to make an impact. Our creative technicians will accommodate any requests, or design visually inspiring scenery from scratch.

Our selection of trussing products can be used for raising lighting and effects for stage, creating outdoor gateways and structures, or even free-standing arches for weddings and show booths.

Our carefully selected inventory – with constant additions – is sourced from Chauvet, Lumi, Global Truss, Leviton, and more.
