

Pro Audio - Production & Rentals

Innovations Music provides quality production services and products for all sizes of events. From conferences to presentations, weddings to live concerts, we have the equipment and know-how to make any event a success. Our range of services includes interior and exterior sound, staging, lighting, video, and live entertainment.

Production Services:

- Professional live sound: Multiple system sizes available to accommodate any event: From small conferences and gatherings to indoor concerts and outdoor events.
- Customizable lighting and live operation: illuminate your event to taste, big or small. Create the mood with a range of lights, structures, and effects.
- On-site staging and rigging: Elevate the quality of your event by hosting the attractions on one of our interior stage configurations. For bigger impact, take the show outdoors with our attractive StageLine mobile stage and services.
- Audio/Video: add impacting PowerPoint and media displays to your event on the big screen, or have your event recorded live for promotion, sales, and keepsake.
- Seasoned live entertainment: boasting an array of talented musicians ready to engage in any event, suitable to many styles and events.

What we offer:

- Skilled and professional team for every project, start to finish
- Highly customizable: bring your event to life with a supply of options and interactive services
- Safe and qualified techs with industry experience
- A strong fleet of quality and industry-leading equipment
- Private rental services also available in store locations
